Shake.
See the current battery
status by shaking your Dash.

With The Dash in The Charger,
connect to your computer or
a power supply via USB.

!   Only put a dry Dash into the Charger

Update

Your Dash learns new skills when
updated to the newest **Bragi OS**.
Download from **update.bragi.com**
BRAGI

. . . . **Make sure your Dash is
charged before updating.**

update.bragi.com

When connected to your computer you can also
upload songs into the **My Music** folder on The Dash.

Video tutorials on **bragi.com/support**

Insert

1. Tilt The Dash slightly forward.
2. Insert the tip firmly in your ear canal.
3. Adjust The Dash by rotating it backwards.

The PerfectFit

Your Dash will automatically turn on
once both **The Left & Right Dash** are inserted

PerfectFit

Try all FitSleeve & FitTip sizes to get the PerfectFit. The sensors must be in contact with your skin to get best tracking results.

! Make sure not to cover the **EarTouch area & DataHub**
And now...
Connect

Control

First connect Audio

Insert The Dash into your ear and search for
The Dash in the Bluetooth® menu of your device.
**! If your Dash does not show up in the list,
do a Long Hold (5 sec) on the Right Dash.
You can find video tutorials on
bragi.com/support**
**Long Hold (5 sec) on
the Right Dash to make
Bluetooth® visible**

Then connect Sensors

To connect The Dash sensors to your device, open
the Bragi App and select your Dash in the device list.

**! Make sure to connect The Dash audio system first
before connecting the sensors.**
EarTouch

Control your Dash with tap, hold and swipe
gestures using the EarTouch Interface.

**The EarTouch Interface
is located on the lower
half of each Dash.**

Tap.
Hold.
Swipe.

Hold on both Dash simultaneously
to turn **TouchLock** on
