

## Audio Limiter

### ■ GENERAL DESCRIPTION

The **NJM2761** is an audio limiter for speaker protection.  
The limit level is adjustable by external resistor.  
It is suitable for PC, portable audio and others.

### ■ FEATURES

- Wide Operating Voltage +2.7V to +13.0V
  - Variable Limit Level by external resistor 0.2 to 1V
  - Low Output Noise -90dBV max.
  - Bipolar Technology
  - Package Outline MSOP10 (TVSP10)\*  
SSOP14
- \*MEET JEDEC MO-187-DA / THIN TYPE
