Model #: B070-016-19-IP

NetCommander 19" Console w/ 16-Port Cat5 IP KVM Switch

Highlights

- 16-port Cat5 IP KVM Switch with built-in 19" LCD Monitor, Keyboard, and Mouse
- Expandable: Connect and control up to 256 computers
- Compatible with all major operating systems (Mac not compatible over IP)

Description

Tripp Lite's B070-016-19-IP, NetCommander Rackmount Console IP KVM switch, is a cost effective and highly flexible system for controlling up to 256 computers from either a single 19" LCD display console, or, from a remote location. The number of connected computers can be increased by cascading additional Tripp Lite B072-008-1 or B072-016-1 KVM switches. Switching between attached servers can be accomplished via the On Screen Display (OSD) or Hotkey commands.

Utilizing Tripp Lite B078-101-Series server interface units, KVM cabling is kept to a minimum via Cat5e/6 patch cables. Servers can be located up to 100 ft. from the switch.

Password feature provides additional security to prevent unauthorized access to attached computers. All rackmount hardware is included, and is designed for easy, one person installation. Fits into any rack from 27" to 42" deep. 2-post rackmounting available using Tripp Lite's B019-000. Compatible with all major operating systems. (Mac not compatible over IP) Constructed of heavy-duty steel housing.

System Requirements

- PS/2 or USB computer / server
- (1) [B078-101-PS2](#) (PS/2) or [B078-101-USB](#) (USB) Server Interface Unit is required for each connected computer/server
- Compatible with all major operating systems. (Mac not compatible over IP)
- Compatible with Internet Explorer 6 and later, and Firefox 3.x

Package Includes

- B070-016-19-IP 16-port KVM 19" LCD Console
- Power Cord
- Serial Firmware Upgrade Cable
- KVM/Console Jumper cable
- Owners manual CD

Features

- 16-port Cat5 IP KVM Switch with built-in 19" LCD Monitor, Keyboard, and Mouse
