- In most applications, a signal booster ([B122-000-60](#)) should be used with this cable to ensure a signal strong enough for your display.
- An alternate, more cost effective solution is to use a Tripp Lite HDMI over Cat5 Extender ([B126-1A1](#)) in place of a 100 ft. HDMI cable and signal booster.

## Model #: P568-100-HD

### 100-ft. 24AWG High Definition High Speed HDMI Gold Cable (HDMI M/M)

#### Highlights

- 24AWG High Definition High Speed HDMI Gold cable
- Premium double-shielded digital audio/video cable
- Supports iPad2 Video Mirroring when used with Apple Digital AV Adapter
- Gold-plated connectors provide optimal signal transfer
- High Speed HDMI and HDCP compliant

#### Description

Tripp Lite's 100-ft. 24AWG High Definition High Speed HDMI Gold cable allows interconnection between digital display devices, such as DTV's ( Digital Television ), Plasma displays, LCD TV's, and projectors, to Digital source devices, such as Digital Set-Top boxes, Blu-Ray players, and AV receivers. Supports iPad2 Video Mirroring when used with Apple Digital AV Adapter. Heavy gauge wire ( 24AWG) assures full 1080p resolution at the display when used with a Tripp Lite HDMI Signal Booster, such as the [B122-000-60](#). HDMI assures that the best video signal is always sent from source (HDTV signal, Blu-Ray Player) to the display (Projection Television, LDC, Plasma, etc.). It does this by allowing uncompressed video and multi-channel audio data to be input to the display device through one single cable. An HDMI connection allows input at high rates of speed, up to 10.2 Gbps.

#### Package Includes

- 100-ft. 24AWG High Definition High Speed HDMI Gold Cable (HDMI M/M)

#### Features

- 24AWG High Definition High Speed HDMI Gold Cable
- Supports iPad2 Video Mirroring when used with Apple Digital AV Adapter
- Gold-plated connectors provide optimal signal transfer
- Premium Double-Shielded cable protects against outside noise (EMI/RFI)
- Impedance matched twisted pair construction reduces cross-talk and interference
- Bandwidth up to 10.2 Gbps - Full 1080p resolution
- In most applications, a signal booster ([B122-000-60](#)) will need to be used with this cable to ensure a signal strong enough for your display
