- Superior-molded cables with foil and braid shielding for maximum EMI/RFI protection

#### Description

Tripp Lite's 100 ft. SVGA/VGA Easy Pull Monitor Cable with Connectors makes running long length video cables a snap. The pull-apart design allows the cable to be run through conduit or other tight areas that a HD15 connector wouldn't fit through. Diameter of the circular DIN end is only 7/8". Circular Easy Pull connector is threaded to ensure maximum security once the cable is reattached. The mini-coax (RGB) and paired video wire construction delivers superior signal quality. Double shielding (foil and braid) provides maximum EMI/RFI protection. Both high density DB15 males are molded and have integral strain relief to ensure they last a long time.

#### Applications

- Suspended ceilings, walls, conduit or anywhere too small to pull a standard HD15 cable through.
