

# 621

## Dual Input Differential Manometer

### Features

- Dual input with +/-120" H2O range.
- 0.001" H2O maximum resolution.
- Seven units of measure (mbar, kPa, PSI, mmHg, inHg, mmH2O, inH2O).
- Display - 5 digit with backlight.
- Smooth - Stabilizes display when measuring fluctuating pressures.
- Auto Off - Conserve battery power.

### Specifications

- Measurement Range:** ±120" H2O
- Display:** 5 Digit LCD with backlight
- Input Type:** Dual Differential (1/4" Barbed)
- Resolution (max):** 0.001" H2O
- Accuracy:** +/-0.2% of full scale
- Functions:** One Touch Zero, Back-light, Unit Selection, Smoothing, Auto power Off
- Units of Measure:** 7 Units (mbar, kPa, PSI, mmHg, inHg, mmH2O, inH2O)
- Battery Type:** 9V alkaline
- Battery Life:** 80hours (Typical)
- Auto Power Off:** 40 minutes

**Standard Accessories (Included):** 9V alkaline battery (A009A), two pieces  
30" silicone tube (A613), two 1/8" NPT to 1/8" barbed fittings (A603)
