

Made in America

Features:

- Inherently black conductive HDPE bottles are made to protect ESD sensitive items, charges removed when grounded
- Low Tribocharging - will not easily produce a charge when moved or lifted
- Low internal contamination - the conductive in the plastic will not readily contaminate contents of bottle
- Pure-Touch Pump
 - Back flow valve that prevents liquid going back in the dish
- Dispenses approximately 2cc of liquid with each pump
- Ideal for use with hand sanitizer
- Made in America Menda pump - accept no substitutes

Bottle Specifications:

- **Resistance Point to Point (Rtt)**
10E2 to 10E6 ohms tested per ANSI/ESD S11.12

Pure-Touch Pump

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." [ESD Handbook ESD TR20.20-2008 section 2.4 Sources of Static Electricity]

Item	Description
35530	Pure-Touch pump, Black Conductive HDPE, 6 oz (180mL)

Unless otherwise noted, tolerance ± 10%
