

Standard Panel Jacks

Color-Coded; Glass-Filled Nylon

Rated to 220°C (425°F)

FREE ID Number Labels and Dust Cap Supplied with Each Jack

Heavy Duty!

JP Series

- ✓ Easy Installation
- ✓ Flexibility
- ✓ ID Labels Included for Identification
- ✓ Decorative—Enhances Any Instrument
- ✓ Combination Phillips/Slot Screws
- ✓ Alloys of the Inserts Match ANSI Thermocouple Grade Calibrations

Panel jacks contain two female, collet-type, spring-loaded connectors that will accept any standard male thermocouple connector. The panel jacks are molded of high-impact, glass-filled nylon and are numbered and labeled as well as color-coded.

Extra supply of our patented design dust caps, SPJ-CAP.

24.6 mm (.97") Depth

Panel Mounting Adaptor Plates

...for mounting a single panel jack in a round knock-out hole

Model No. RJACL

Mounting plate used with type JP decorator styled, color-coded panel jacks adapts them for mounting as single-circuit jack in control panel or instrument case. Simplifies mounting, and holds the connector in place tightly. Covers 33.3 mm (1.31") diameter knock-out hole. All adaptor plates are made of 0.76 mm (0.030") nickel-plated steel. Price includes all screws and mounting hardware.

We make running changes when technical advances allow. Check at time of ordering for additional features.
