

# Parrot® ASTEROID *Mini*

Apps, music and Bluetooth® hands-free

The Parrot ASTEROID *Mini* is a hands-free calling and multimedia system that fits in all vehicles and seamlessly integrates with an existing audio system. It offers driving assistance applications (Navigation, Points Of Interest, Music On Demand, Information, Web radio), access to all your music sources and advanced hands-free features. Its 3.2" color screen and wireless remote control make it discreet and user friendly.

## Useful Apps

Discover and download connected Apps from the ASTEROID *Market* including Navigation, Driving Assistance, Points Of Interest, Music On Demand and Web Radio.

## The best of Bluetooth® hands-free calling

Automatically synchronize your entire phonebook, initiate calls using advanced voice recognition, and simultaneously manage calls on two different phones.

## Voice-activated music search

Push the dedicated button, say an artist or an album name and enjoy your music.

## Connect to the world

Access the Internet through a compatible Smartphone using a 3G/4G USB dongle. Works with all Smartphone operating systems including Android™, iOS, RIM, Symbian® and Bada.

## The largest variety of music connectivity

Access all your music from your iPod®/ iPhone®, USB, SD card, Bluetooth®, line-in and also directly from music Apps.

## Simple and innovative design

The ASTEROID *Mini* includes a large color display and remote control to easily manage all system features. The remote control can operate wirelessly with a battery or enable the back-lit buttons by connecting the remote via cable to the car's power source.
