## Jig Board Clamps

Raceways

**Frame & Stringer
Clip-On Supports**

Amphenol has over 30 years experience in System Attachment technology, serving the Aerospace, Military, Industrial and extreme environment markets. The company produces high quality, low cost products and prides itself on timely and accurate delivery.

Designed for pre-installation wire harness assembly, the Jig Board Clamps from Amphenol outlast and outperform other jig board clamping devices in the market. Made of Acetal, our durable clamps maintain their original shape after continued use, yet the smooth design of their edges diminish wear on the harnesses as they're being assembled. Developed in multiple sizes, our Jig Board Clamps can accommodate a wide range of cable diameters, while the one-piece design enables efficient inventory management. Amphenol's clamps make wire harness assembly simple and convenient – saving both time and money.
Features & Benefits:

- Strong and durable—lasts a long time
- Various sizes—accommodates a wide range of wire diameters
- Easy to use
- Smooth edges—limits wire chaffing/wear & tear
- One-Piece design
- No elastic band or straps required

Let us help you find the solution.

Amphenol

Technical Specifications

Amphenol Part Number	Ø A	B	C
ALBCLP-001-01	0.50"	1.85"	0.375''
ALBCLP-001-02	1.25"	2.81"	0.625''
ALBCLP-001-03	2.00"	3.80"	0.625''
ALBCLP-001-04	0.88"	2.36"	0.500''

Scale: Inches

<u>Material</u>: Acetal

<u>Screw</u>: 10/32

High Performance Clamps
Amphenol Part Number	Ø A	B	C
ALBCLP-001-05	0.50"	1.85"	0.375"
ALBCLP-001-06	1.25"	2.81"	0.625"
ALBCLP-001-07	2.00"	3.80"	0.625"
ALBCLP-001-08	0.88"	2.36"	0.500"

Scale: Inches

<u>Material</u>: Acetal

<u>Screw</u>: 10/32

Fairlead Blocks
Jig Board Spacer

To aid in the installation of the wire harness assembly, the Jig Board Spacer effectively increases the height of the Jig Board Clamps—making wire routing more convenient.

<u>Part Number</u>: ALBSPC-001-01

Scale: Inches
