

### Features:

- Universal AC input / Full range
- Protections:Short circuit/Over load/Over voltage
- · Cooling by free air convection
- LED indicator for power on
- 100% full load burn-in test
- All using 105  $\!\!\!\!\!^{\circ}_{\circ}$  long life electrolytic capacitors
- · Withstand 300VAC surge input for 5 second
- High operating temperature up to  $70^{\circ}$ C
- Withstand 5G vibration test
- High efficiency, long life and high reliability
- 3 years warranty

NOTE	Ripple & noise are measure Tolerance : includes set up Line regulation is measure Load regulation is measure Each output can work within	NOT specially mentioned are measured at 230VAC input, rated load and 25°C of ambient temperature. are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor. Ides set up tolerance, line regulation and load regulation. If some surred from low line to high line at rated load. If some surred from 20% to 100% rated load, and other output at 60% rated load. In work within current range. But total output power can't exceed rated output power. If some surred from 20% to 100% rated load, and other output at 60% rated load. If some surred range is not total output power can't exceed rated output power.											

- 8. Length of set up time is measured at cold first start. Turning ON/OFF the power supply very quickly may lead to increase of the set up time.
